Associate Prof. Ayman Elshenawy

He received his bachelor's degree in Systems and Computer Engineering from Al-Azhar University Egypt, in 2000.

He received his master's degree in Systems and Computer Engineering from Al-Azhar University Egypt, in 2006.

Ph.D. degree in Systems and Computer Engineering from Al-Azhar University Egypt, in 2013.

He held the position of lecturer in the Department of Systems and Computer Engineering, Faculty of Engineering, Al-Azhar University, from April 2013 to April 2020.

He was promoted to Assistant Professor, Department of Systems and Computer Engineering, Faculty of Engineering, Al-Azhar University, in June 2020.

He was assigned to teach in the Department of Electrical Engineering at the Institute of Engineering Technology on the tenth of Ramadan from 2014 to 2020, Canadian International College.

He is a member of the advisory committee for the development of Al-Azhar institutes in digital transformation projects.

He is currently working as an associate professor at Software Engineering and information technology, Faculty of engineering and technology, Egyptian Chinees University.

He participated in supervising many master's and doctoral theses in the Department of Systems and Computer Engineering, Faculty of Engineering, Al-Azhar University.

He participated in many engineering conferences and participated in many types of research in the field of artificial intelligence, data mining, and robotics.

He made significant contributions to the stated research fields publishing top-quality journals/conferences including The Computer Journal and the International Journal of Imaging and Robotics, Education and Information Technologies, and Wireless Personal Communications Journal.

His research interests include Artificial Intelligent Methods, Robotics, and machine learning.
